Notes to the Condensed Consolidated Interim Financial Statements (unaudited - expressed in Canadian dollars)
For the Six Months ended September 30, 2015 and September 30, 2014

1. CORPORATE INFORMATION

The Company is engaged principally in the acquisition, exploration and development of mineral properties. The recovery of the Company's investment in mineral properties and attainment of profitable operations is principally dependent upon financing being arranged by the Company to continue operations, explore and develop the mineral properties and the discovery, development and sale of ore reserves.

The Company was incorporated under the Business Corporations Act of British Columbia by Certificate of Incorporation dated November 29, 1965. The Company is listed on the TSX Venture Exchange ("TSX-V"), having the symbol GRV-V, as a Tier 2 mining issuer.

The address of the Company's corporate office and principal place of business is Suite 888 - 700 West Georgia Street, Vancouver, British Columbia, V7Y 1G5.

2. BASIS OF PREPARATION

(a) Statement of Compliance

The condensed unaudited consolidated interim financial statements of the Company for the six months ending September 30, 2015 have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). These unaudited condensed consolidated interim financial statements have been prepared in full compliance with International Accounting Standard 34, "Interim Financial Reporting" ("IAS 34"). Accordingly, these unaudited condensed consolidated interim financial statements follow the same accounting principles and methods of application as the audited annual consolidated financial statements for the year ended March 31, 2015 but may condense or omit certain disclosures that otherwise would be present in annual financial statements prepared in accordance with IFRS. These financial statements should therefore be read in conjunction with the audited annual consolidated financial statements for the year ended March 31, 2015. Results for the period ended September 30, 2015, are not necessarily indicative of future results. These unaudited condensed consolidated interim financial statements were authorized for issue by the Board of Directors on November 19, 2015.

(b) Basis of Presentation and Measurement

These unaudited condensed consolidated interim financial statements have been prepared on a historical cost basis and include the accounts of the Company and its wholly-owned subsidiary, Ootsa Ventures Ltd. All material intercompany accounts and transactions have been eliminated.

The unaudited condensed consolidated interim financial statements are presented in Canadian dollars, which is also the Company's and its subsidiary's functional currency.

The preparation of financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies. The areas involving a higher degree of judgment of complexity, or areas where assumptions and estimates are unchanged from those set out in Note 4 of the audited Consolidated Financial Statements for the year ended March 31, 2015.

Notes to the Condensed Consolidated Interim Financial Statements (unaudited - expressed in Canadian dollars)
For the Six Months ended September 30, 2015 and September 30, 2014

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

There have been no material revisions to the accounting policies reported in the Company's audited Consolidated Financial Statements for the Year Ended March 31, 2015.

(a) Going Concern of Operations

These unaudited condensed consolidated interim financial statements have been prepared on a going concern basis, which assumes that the Company will be able to meet its obligations and continue its operations over the next year.

At September 30, 2015 the Company had not yet achieved profitable operations, had accumulated losses of \$16,691,036 since inception, had working capital of \$380,950 and expects to incur further losses in the development of its business however, the Company does not have sufficient cash resources to meet its obligations for at least twelve months from the date of approval of these financial statements. As the Company is in the exploration stage, the recoverability of the costs incurred to date on exploration properties is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the exploration and development of its properties and upon future profitable production or proceeds from the disposition of the properties and deferred exploration expenditures. The Company will periodically have to raise funds to continue operations and, although it has been successful in doing so in the past, there is no assurance it will be able to do so in the future.

b) Significant Accounting Judgments, Estimates and Assumptions

The preparation of the Company's consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities and contingent liabilities at the date of the consolidated financial statements and reported amounts of income and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates.

Areas requiring a significant degree of estimation and judgment relate to the recoverability of the carrying value of exploration and evaluation assets, fair value measurements for financial instruments and share-based payments, the recognition and valuation of provisions for restoration and environmental liabilities, the recoverability and measurement of deferred tax assets and liabilities, and ability to continue as a going concern. Actual results may differ from those estimates and judgments.

For the Six Months ended September 30, 2015 and September 30, 2014

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

There have been no material revisions to the nature of judgments and amount of changes in estimates of amounts reported in the Company's unaudited Condensed Consolidated Interim Financial Statements for the six months ended September 30, 2015.

5. RECLAMATION BONDS

Included in Mineral Exploration and Evaluation Costs as at September 30, 2015, is the Company's aggregate reclamation bonds posted with the Mining and Minerals Division of the British Columbia Government in the amount of \$169,900 (March 31, 2015 - \$169,900).

The remaining bonds cover the future site restoration costs with respect to the Seel and Ox Lake Claims, collectively known as the Oosta Property. All or part of the \$169,900 can be recovered subject to the inspection of the sites and assessment of the restoration costs by the Mining and Minerals Division of the British Columbia Government.

The bonds have not been discounted from their future value because the Company estimates the bonds may be settled within 2 years and the discounting cost being considered immaterial. The Company believes that the amount of the bonds includes sufficient risk premium.

Recovery of the posted bonds remains subject to the inspection of the sites and assessment of the restoration costs by the Mining and Minerals Division of the British Columbia Government.

6. MINERAL PROPERTIES

As at September 30, 2015, the Company owned a 100% interest in the Ootsa Property, located in central British Columbia, comprised of 120 mineral claims totalling 72,538 hectares.

The Company may purchase the remaining 1% NSR at any time by payment to Silver of an additional \$1,000,000. There is an associated Area of Interest with these claims, defined as the area lying within a distance of one kilometre from the external boundaries of the claims.
- There are four claims totalling 3,028 hectares, known as the Seel claims, which are subject to a 1% NSR. The Company is entitled at any time to purchase 50% of this 1% NSR for \$1,000,000. 6. MINERAL PROPERTIES (continued)

- Two additional claims known as the Swing claims (the "Captain Mine") totalling 384 hectares were purchased in March 2014 in consideration of 25,000 common shares of the Company at a market value of \$0.91 per common share, subject to a 2% NSR. The purchase agreement with the vendor entitles the Company to purchase 50% of the 2% NSR from the vendor at any time by the payment to the vendor of \$500,000 or the Company may purchase the entire 2% NSR at any time by payment to the vendor of \$1,000,000.
- The Troitsa Peak claim totalling 211 hectares was purchased in November 2014 for total consideration of \$5,000 cash and 10,000 common shares of the Company. This claim is subject to a 1% NSR, half of which can be bought back at any time by the Company for \$500,000.
- During the three months ended June 30, 2015 the Company staked an additional four claims totalling 306 hectares.

The Company now owns mineral rights to 72,538 hectares comprised of 120 claims. Of these claims, 104 (70,715 hectares) have had sufficient exploration work completed to remain valid until July 2, 2025, while 10 claims (1,440 hectares), expire on July 2, 2017 and 6 claims (422 hectares) expire on July 2, 2018.

Auro Property

In March 2012, the Company sold all of the Company's mineral interests known as the Auro and Auro South properties ("Properties") to New Gold Inc. ("New Gold"). Under the terms of the purchase agreement, the Company retained a 2% NSR on the Properties and New Gold committed to spend Cdn. \$1,500,000 during 2012 through 2014. New Gold has completed its required spending commitment on the Auro claims.

British Columbia Mineral Tax Credits ("BCMETC")

Certain qualified exploration costs incurred by the Company entitles it for refundable tax credits as part of an exploration incentive plan offered by the Province of British Columbia. In April 2015 the Company the Company filed a BCMETC claim with the Canada Revenue Agency seeking \$335,730 in qualified refundable tax credits for the year ended March 31, 2015. The Company had accrued \$300,000 of the \$353,710 during the year ended March 31, 2015. In late July 2015 the Company received in full its refund. The Company presently estimates it will not have any material qualified costs in fiscal 2016 that might give rise to additional future BCMETC refunds.
